Height Adjustable Table Base

Achieve your desired worksurface height with this basyx by HON Height-adjustable Table Base. This base attaches to a worksurface to create a table that moves from 28-5/8" high to 48-1/4" high to support sit-to-stand needs. The motor-activated lift moves quickly and supports a dynamic load of 250 lb. Tabletop is sold separately. Base is compatible with HON Voi worksurfaces with depths of 24" or 30". Base includes screws for worksurface attachment.
